

AGREEMENT GRADUATE PROGRAM

Universidad del Turabo requires that all candidates to a graduate program take a Graduate Admission Exam offered by the Educational Testing Service, like:

- Admission Test for graduate studies (EXADEP)
- Graduate Record Examination (GRE)
- Miller Analogies Test (MAT)
- Graduate Management Admission Test (GMAT)

The results of these tests are valid for 5 years. If at the moment of submitting the admission application candidates have not taken any admission exam for the graduate programs, the Admission and Evaluation Committee may grant conditional admission if it understands that it is meritorious; and if the candidate consents to take any of the Graduate Admission Exams before completing 12 credits in any of our programs.

I certify that I have read and understand the indications above, and that I agree to take a graduate admission exam and submit the scores to Universidad del Turabo; otherwise my admission will be canceled.
